LED MultiPAR 1W

order code. LEDPAR575 Black
LEDPAR576 Silver

The new LED MultiPAR is a high powered LED spotlight to give you almost infinite coloured possibilities. In an industry standard MultiPAR case, this attractive and unique new unit features 24 1W RGB LEDs controlled via 7 DMX channels. No other fixture provides the amount of light output in such a compact package. The theatrical look of the LED MultiPAR makes the unit a perfect compliment to theatre, stage and show rigs. Of course there is very little heat produced from the unit and no noise as there are no fans on board. The standard lens gives a 25 degree beam spread with an optional, wider angle lens also available.

TECHNICAL SPECIFICATIONS

> Full range dimming on Red, Green and Blue LED's for full colour mixing
> DMX, Auto Mode, Audio, Static Colour Selection Via digital menu system
> 5 Pin
> 7 Channels
> 25° Optics, Optional 40°
> 220 x 275 x 320mm
> 5.6kg

LED MultiPAR 375

order code. LEDPAR375 Black
LEDPAR376 Silver

The compact LED MultiPAR 375 is the smaller brother to the very popular full sized version but features the same high powered LED's, convenient control and stand alone options. However, its compact size and convenient floor stand yoke makes this unit very useful indeed for a variety of smaller applications.

TECHNICAL SPECIFICATIONS

> 12 x High Powered 1Watt LED's
> Full range dimming on Red, Green and Blue LED's for full colour mixing
> DMX, Auto Mode, Audio, Static Colour Selection Via digital menu system
> 5 Pin
> 7 Channels
> 25° Optics
> 145 x 165 x 245mm
> 3.2kg

LED PAR56

order code. LEDPAR560 Black
LEDPAR561 Polished

The LED PAR 56 is suitable for all styles of applications, corporate productions, trade shows, pubs and clubs. Colours are very bright and vibrant without sacrificing output. Each unit can be individually addressed and only draws 15 watts.

TECHNICAL SPECIFICATIONS
> 153 x 5mm LED's
> Full range dimming on Red, Green and Blue LED's for full colour mixing
> DMX, Auto Mode, Audio, Static Colour Selection
> 5 Pin
> 5 Channels
> 25° Optics
> 210 x 222 x 222mm
> 1.8kg

LED PAR36 Can

order code. LEDPAR360 Black
LEDPAR361 Polished

The LED PAR36 looks like a PAR36 Can, but it is actually an affordable RGB colour mixing LED fitting with 66 LEDs controlled via DMX, auto-mode or sound through its internal microphone.

TECHNICAL SPECIFICATIONS
> 66 x 5mm LED's
> Full range dimming on Red, Green and Blue LED's for full colour mixing
> DMX, Auto Mode, Audio, Static Colour Selection
> 5 Pin
> 5 Channels
> 25° Optics
> 138 x 138 x 220mm
> 1.4kg

LED Pinspot

order code. LEDPAR365 Black
LEDPAR366 Polished

The LED Pinspot's lifetime is extremely long and the power consumption is very low. It features pre-programmed chases and colours triggered by the built in processor or music-controlled as well as DMX.

TECHNICAL SPECIFICATIONS
> 66 x 5mm LED's
> Full range dimming on Red, Green and Blue LED's for full colour mixing
> DMX, Auto Mode, Audio, Static Colour Selection
> 5 Pin
> 5 Channels
> 25° Optics
> 10 x 130 x 220mm
> 1.4kg

LED PAR64

order code. LEDPAR640 Black
LEDPAR641 Polished

The LED PAR 64 is a short PAR 64 fixture that allows you to create almost limitless colour possibilities with amazing output. The compact and lightweight housing means that it is ideal for simple colour wash of stage and truss warming applications.

TECHNICAL SPECIFICATIONS
> 168 x 10mm LED's
> Full range dimming on Red, Green and Blue LED's for full colour mixing
> DMX, Auto Mode
> 3 Pin
> 4 Channels
> 25° Optics
> 225 x 225 x 325mm
> 1.6kg

new

LED 4-Way Blinder

order code. LEDPAR364 Black

The audience blinder is one of those staple elements for both club and live production situations alike, it's the key to keep the crowd engaged with the act. This LED version of the 4-Way Blinder takes this effect to the next level. Utilising high power yet quite wide angled LED's, the unit emits a bright flood of colour over the audience or performers on stage. The unit has multiple control modes to allow simple dimming control of the whole unit, down to individual red, green and blue level controls of each individual LED heart; this allows you to use it as an LED pixel grid if you wish.
The unit also has stand alone modes all selectable, like the DMX address, from a digital display.

TECHNICAL SPECIFICATIONS
> 48 x High Powered 1Watt LED's
> Full range dimming on Red, Green and Blue LED's for full colour mixing
Individual Control of LED Hearts
> DMX, Auto Mode, Audio, Static Colour Selection Via digital menu system
> 5 Pin
> 16 Channels
> 25° Optics
> 660 x 750 x 190mm
> 11.3kg

LED Wall Washer IP44

order code. LEDWSH360

The LED Wall Washer is an IP-44 rated fixture designed for use as a versatile colour-mixing floodlight in a variety of different applications. Its long life LED's mean that it is ideal for architectural use and its DMX capabilities means that it is also suited to rental and production use as a powerful colour changing flood light. The unit is fitted with a solid base for free standing and there is hole in the bottom to attach a clamping device.

TECHNICAL SPECIFICATIONS
> 360 x 5mm LED's
> Full range dimming on Red, Green and Blue LED's for full colour mixing
> DMX
> Waterproof 3 Pin
> 3 Channels
> 25° Optics
> 210 x 222 x 222mm
> 3.9kg

Honeycomb 36

order code. LEDWSH369

High powered yet compact, the Honeycomb 36 is an amazing fixture that has many applications. 36 RGB 1W LEDs combine to offer amazing brightness via DMX control. The unit is waterproof, ideal for fixed installations as well as touring and production.

TECHNICAL SPECIFICATIONS
> 36 x High Powered 1Watt LED's
> Full range dimming on Red, Green and Blue LED's for full colour mixing.
IP rated for outdoor use
> DMX
> 5 Pin
> 3 Channels
> 25° Optics
> 381 x 178 x 110mm (inc. yoke)
> 5.8kg

Honeycomb 72

order code. LEDWSH370

The Honeycomb 72 is an amazingly bright fixture that has many applications. The 72 RGB 1W LEDs offer great output making it ideal for stage wash or fixed installations. The extruded aluminum alloy is an attractive yet practical waterproof case.

TECHNICAL SPECIFICATIONS
> 72 x High Powered 1Watt LED's
> Full range dimming on Red, Green and Blue LED's for full colour mixing.
IP rated for outdoor use
> DMX
> 5 Pin
> 6 Channels
> 25° Optics
> 681 x 178 x 110mm (inc. yoke)
> 5.8kg

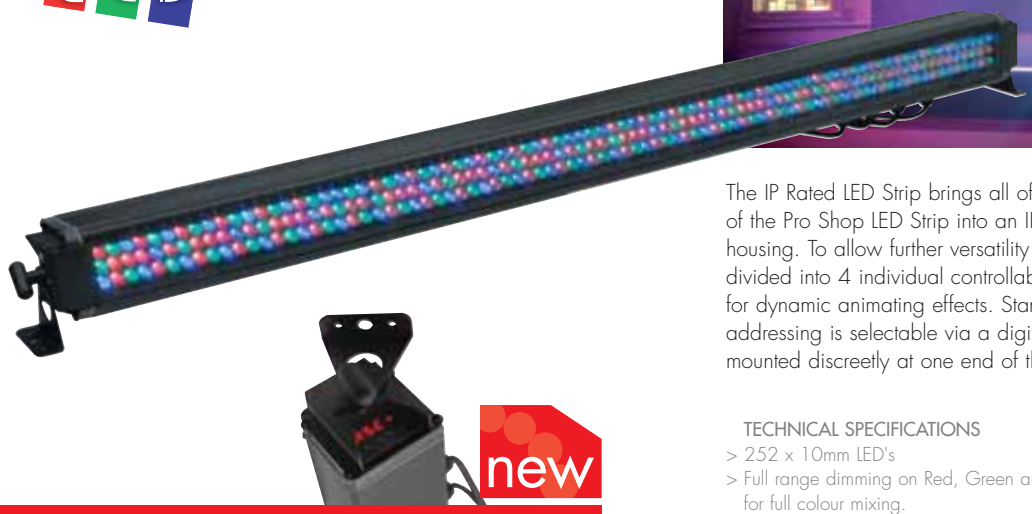
new

LED Scena Wash

order code. LEDWSH600

The Scena Wash is a large scale LED flood light that incorporates high powered red, green and blue LED's full large scale colour mixing applications such as stage floods, wall washing and corporate theming during events. As well as DMX control the unit can be pre-programmed with scenes internally.

TECHNICAL SPECIFICATIONS
> 49 x High Powered 1Watt LED's
> Full range dimming on Red, Green and Blue LED's for full colour mixing
> DMX, Auto Mode. Via digital menu system
> 5 Pin
> 6 Channels
> 25° Optics
> 425 x 375 x 229mm
> 13.5kg



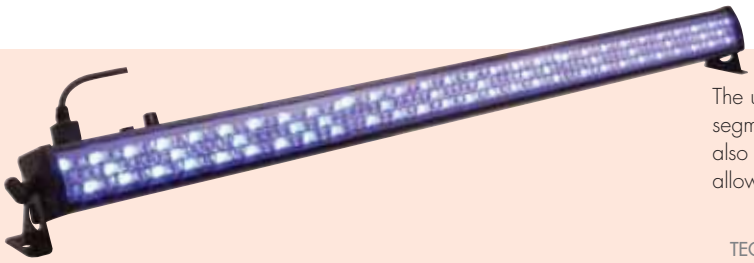
new

IP Rated LED Strip

order code. LEDSTP110

The IP Rated LED Strip brings all of the popular features of the Pro Shop LED Strip into an IP Rated outdoor housing. To allow further versatility the unit has been divided into 4 individual controllable sections to allow for dynamic animating effects. Stand alone and DMX addressing is selectable via a digital menu system mounted discreetly at one end of the unit.

TECHNICAL SPECIFICATIONS
> 252 x 10mm LED's
> Full range dimming on Red, Green and Blue LED's for full colour mixing.
4 individual controllable segments.
IP65 rated for outdoor use
> DMX, Auto Mode, Audio, Static Colour Selection
Via digital menu system
> 3 Pin
> 16 Channels
> 25° Optics
> 85 x 1070 x 65mm
> 6kg



LED Strip

order code. LEDSTP100

The unit features 252 ultra bright LEDs divided into three segments that can be controlled separately. The unit can also be used as a strobe and the on board dimmer allows accurate electronic control of the light output.

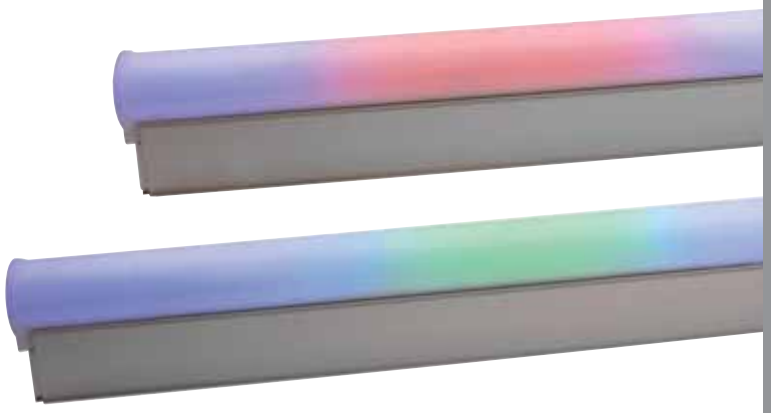
TECHNICAL SPECIFICATIONS
> 252 x 10mm LED's
> Full range dimming on Red, Green and Blue LED's for full colour mixing
3 individual controllable segments
> DMX, Auto Mode, Audio, Static Colour Selection
> 3 Pin
> 13 Channels
> 25° Optics
> 85 x 1070 x 65mm
> 3kg

GigaLED

order code. LEDGIG100

The unit features 216 high intensity RGB LEDs that provide over 16 million possible colour combinations. This exciting solid state product has many applications including touring, nightclubs and displays.

TECHNICAL SPECIFICATIONS
> 216 x 10mm LED's
> Full range dimming on Red, Green and Blue LED's for full colour mixing
> DMX, Auto Mode, Audio, Static Colour Selection
> 3 Pin
> 4 channels
> 25° optics
> 192 x 125 x 428mm
> 3.5kg



LED DMX Tubes & Accessories

LEDTUB110	LED DMX Tube
LEDCON110	LED DMX Tube Addressing Unit
LEDACC001	LED Tube 5m Power Ext Cable 2 Pin
LEDACC030	LED DMX Tube DMX to Tube 5m Length 5-5 Pin
LEDACC040	Brackets for LED Tubes

Power extensions available

The now famous LED DMX Tube has found a home on many corporate events, concert tours, stage sets and installations. This innovative piece of technology even has the ability of being used together with media servers as part of a larger visual display via pixel mapping. The addresser is an essential piece of equipment required to allocate the DMX address to each tube.

TECHNICAL SPECIFICATIONS

> 144 x 5mm LED's
> Full range dimming on Red, Green and Blue LED's for full colour
  Up to 16 Individual Controllable Pixels
> DMX
> 5 Pin
> 6, 12, 24, 48 Channels
> 1000 x 50 x 75mm

LED Neon Flex

order code. LEDFLX100 Blue
LEDFLX110 White
LEDFLX120 Red
LEDFLX130 Orange
LEDFLX140 Yellow
LEDFLX150 Amber
LEDFLX160 Green
LEDFLX200 Mounting Clip
LEDFLX220 Accessory Pack

The market for linear lighting is vast. Though traditional Neon has long been the mainstream choice it is also acknowledged as having many weaknesses. Traditional Neon is complicated to install and fragile in nature. LED Neon Flex is made up entirely of a string of high intensity LEDs arranged in a linear fashion and spaced closely together so it looks very much like traditional neon when powered up. The spacing of the LEDs so close together also provides an even distribution of light. Due to the use of LEDs, the product has a very long average lifetime and power consumption is very, very low. Neon Flex is suitable for outdoor or indoor use. There are 7 colour choices to choose from: Red, Green, Yellow, Orange, Amber, White and Blue.
Neon Flex is a plug and play solution and installation takes minutes. Just cut the LED Neon Flex on the cutting mark (each colour has different cutting marks), connect the power cord and end cap, and your LED Neon Flex is ready to use. Applications including signage, stage sets, TV sets, display, cove lighting, highlight, outlining features, edge lighting and safety lighting.

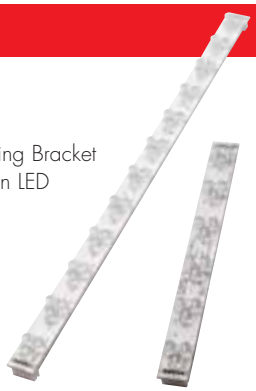
LED Listel Light

order code. LEDLIS100 Blue
LEDLIS110 White
LEDLIS120 Red
LEDLIS140 Yellow
LEDLIS160 Green

Listel Light is a unique product that allows you to use your imagination to light up objects, stage sets, provide ambience, signage, cove lighting or highlight architectural features. The product is a 1 metre strip of single colour high intensity LEDs mounted on a copper strip and housed in a silica gel that is entirely flexible. Each strip features 99 LEDs and runs off a 12V DC power supply so it is easy to install and safe to handle. Listel light can be used both indoor and outdoor (IP44 rated). Up to three 1 metre strips can be run in parallel off one power feed and each metre draws 0.8 amps at 12VDC.

LEDSTP291 Control Unit for range

LED PCB Strip



order code. LEDSTP145 145mm
LEDSTP290 290mm
LEDSTP292 300mm Mounting Bracket
LEDSTP293 5cm Connection LED
LEDSTP294 Power Supply

This PCB based LED Strip is a simple and inexpensive solution to colour changing cove lighting. Most applications of cove and strip lighting do not require complex housings or individual control ability; this is where this system is easily adapted. Each strip is 290mm long and is connected to the DMX control interface by included ribbon cables. Each strip is then connected to each other in series. The DMX control interface has four individual output channels which can be controlled via DMX or automatic modes from the on board menu system. The DC power supply is connected to the interface and determines the amount of LED strips that can be connected.
Under bar fronts, kick boards, rear bottle displays or anywhere colour changing can enhance a design will benefit from this simple yet very powerful product.
There is also another version of a LED Strip in a shorter 145mm version to help navigate around tight corners and to ensure the right fit to any application.

new

23 x 23cm LED PCB Board

order code. LEDBRD230

Like the new LED PCB Strip, custom applications can benefit from the all new LED PCB Board 230. This is a 230mm square board, populated with red, green and blue LED's and plugged simply into the LED Control Unit for DMX and stand alone interface.

TECHNICAL SPECIFICATIONS
> LED PCB Board 230
> DC 24V
> 6.91W
> 5 Pin connector for input and output connection
> 230 x 230 x 1.6mm
> 0.22kg

LED MR16 PCB

order code. LEDDWN050

Like the new LED PCB Strip, custom applications can benefit from the all new LED PCB MR-16. This is a 50mm diameter heart, populated with red, green and blue LED's and plugged simply into the LED Control Unit for DMX and stand alone interface.

TECHNICAL SPECIFICATIONS
> LED MR16 Fitting
> DC 24V
> 0.85W
> 5 Pin connector for input and output connection
> 50 x 1.6mm
> 0.01kg

new

LED Clip Light

order code. LEDCLP100 White
LEDCLP101 Warm White
LEDCLP102 Red
LEDCLP103 Green
LEDCLP104 Blue
LEDCLP105 Yellow

Clip Light is one of the simplest yet one of most popular lighting effects ever. Be it a festive season production or just to increase the ambience of a beer garden or similar outdoor installation the sparkling string of light sources creates a little more magic to any application. Now with LED's, clip light is even more reliable and bright, furthermore this latest version features a much stronger connecting system to ensure that the lamp holders do not slip off.
These units come as 100m rolls and can be cut to suit your application, a variety of colours are also available.

TECHNICAL SPECIFICATIONS
> 333 x 5mm LED's per 100m
> 300mm Spaced LED's
White, Warm White, Red, Green, Blue
Discreet Cable
> 12V
> 80° Optics
> 100m roll

LED Colour Changing 4 Way Panels

order code. LEDPAN550 4 Way Panel 500mm
LEDCON005 Addressing Remote

The LED panel is a 500mm square tile that is divided into 4 squares. The warm and vivid colours will create an array of desired atmospheres in your venue or stage. These units are great value for money as they are a light show within themselves.

TECHNICAL SPECIFICATIONS
> Full range dimming on Red, Green and Blue LED's for full colour mixing. Each panel is divided into 4 controllable segments
> DMX, Auto Mode via remote
> CAT5
> 12 Channels
> 505 x 505 x 55mm
> 4.2kg

LED Port / Dome

order code. LEDDWN100
LEDDWN110

The LED Port/Dome is an LED powered down light suitable for decorative lighting purposes in installations such as nightclubs, bars and restaurants. Almost infinite colour possibilities are achievable via the electronic mixing of 90 RGB high intensity LEDs. They are extremely great value for money and will impress the most discerning of users in any application.

TECHNICAL SPECIFICATIONS
> 90 x 10mm LED's
> Full range dimming on Red, Green and Blue LED's for full colour mixing.
> DMX, Auto Mode, Audio, Static Colour Selection
> 3 Pin
> 4 Channels
> 25° Optics
> 220 x 220 x 180mm
> 1.2kg

FIRE RATED

LED Light Curtain 6 x 3m

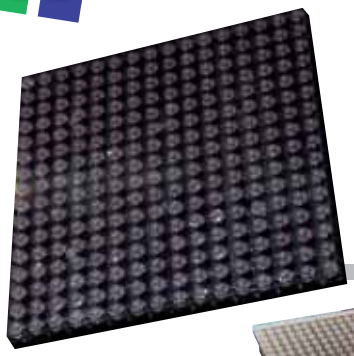
order code. ADJEFF160 Black Curtain with Multicolour LEDs
ADJEFF150 Black Curtain with White LEDs
ADJEFF170 White Curtain with White LEDs

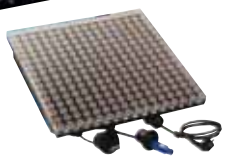
Built in programs or DMX control. The 6 x 3m Curtain has 192 LEDs connected at random and is perfect for backdrops, display and installations. The Curtain comes complete with carry bag.

LED Light Curtain Set 2 x 3m

order code. ADJEFF130 Multicolour LEDs
ADJEFF140 White LEDs

Built in programs or DMX control. The 2 x 3m Curtain has 96 LEDs connected at random and is perfect for backdrops, display and installations. This excellent package comes complete with 2 stands, cross bar and carry bag.





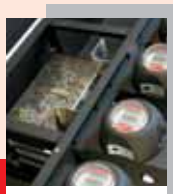
LED Video Panel

order code. LEDVID010 Panel
LEDVID015 Controller

The LED Video Panel is a modular LED Screen equally at home in permanent installations and mobile applications where high output vision is required.
Each panel is 50 x 50cm and contains 256 pixels in a 16 x 16 matrix. The modules are suitable for the display of real time video, images and text.
Perfect for temporary use in live productions due to the ease of setup and pack down, IP65 rated for outdoor use, bright and powerful... The LED Video Panel is extremely useful in many applications and will help make your next project stand out from the rest.

TECHNICAL SPECIFICATIONS

> 3 Red, 3 Green, 3 Blue LED per pixel (2304 in total per panel)
> 16 x 16 colour mixing pixels per panel
31mm pixel pitch
Modular System to create larger screens
IP65 Rated
> DVI Source from PC
> Wide angled LED's for multiple viewing angles
> 500 x 500 x 100mm
> 16.2kg



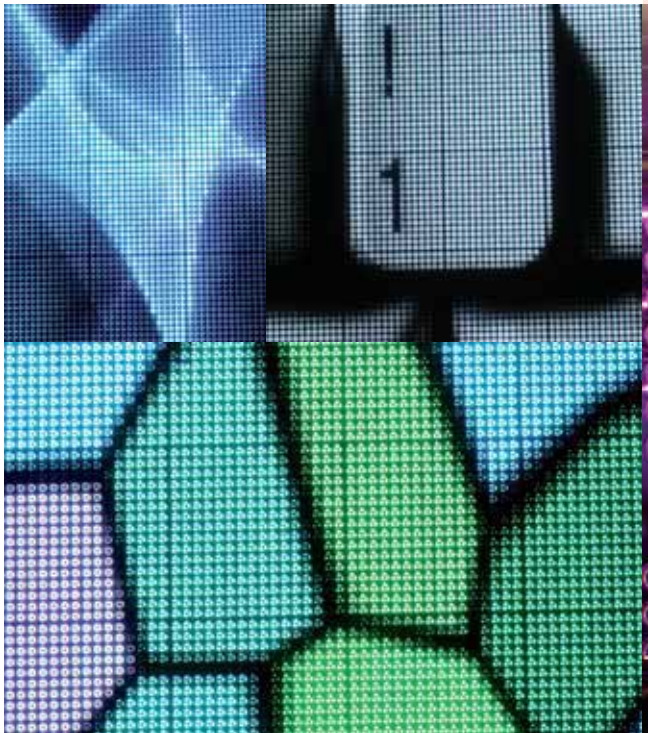
CityLED Video System

order code. STULED010
STULED015 DMX Controller
STULED016 Power Supply

The CityLED from Studio Due is an architectural or medium/large scale video pixel system that bridges the gap between lighting and video very nicely. Each LED "heart" contains 42 high intensity LED's so is easily at home in high light applications such as bright stage setups or semi daylight applications.
Once addressed and setup each powerful LED source acts a pixel in a screen, a perfect way to display graphics, vision, text or any number of dynamic back drop or foreground looks.
Units can be used in a loose arrangement or used with a connection frame for perfect measurements and rapid setup.

TECHNICAL SPECIFICATIONS

> 42 x 5mm LED's
> Full range dimming on Red, Green & Blue LED's for full colour mixing
Direct DMX Input for Video Input via LED Mapping System
> DMX
> Custom Connections
> 3 Channels per Pixel
> 25° Optics
> 100 x 87 x 53mm
> 0.5kg



ArKaos VJ 3.6 DMX

order code. ARKSOF360

The new version of ARKAOS, the professional video authoring software, is known as VJ 3.6 DMX. While still retaining all the brilliant features of previous versions such as easy to use interface for the user, powerful real-time video effects, live video feed possibilities and DMX control; the new version now has the following features:
Soft-edge - Users can now select a custom video resolution for output allowing - from a single computer! - to output visuals on multiple screens (i.e. different visuals on separate screens) or on a wide screen (seamless blending between the screens).
LightJockey compatibility - The compatibility with LightJockey 2.7.1 has been greatly improved: Martin has added built in ArKaos VJ DMX fixtures tiny and full channel modes into their software.
43 new effects - This new version also adds support for the Shader effects with a set of 43 new fully configurable effects which benefit from the Hardware Accelerated video engine (the HW Mode) and its unprecedented visual smoothness and image quality.

ArKaos LED Mapper

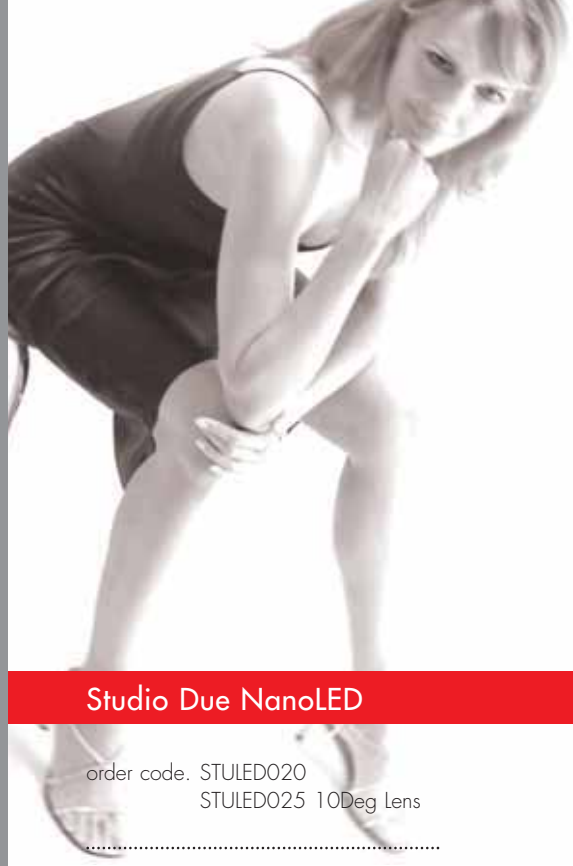
order code. ARKSOF010

The LED Mapper extension for the ArKaos VJ DMX media server software allowing it to map the server's video output directly to any configuration of LED devices. Pixel colours or intensity are sent directly from the media server to the LED through the ArtNet protocol (DMX over Ethernet). The LED Mapper extension allows you to import your own mapping of LED devices into ArKaos VJ DMX... The possibilities are virtually endless. A simple arrangement of LED RGB fittings such as pixel panels, simple LED hearts or LED Tubes can become an affordable video wall for effects behind a DJ in a venue, the rear of a stage setup or decorative installation.

Show Media USB

order code. MEDSRV040

The Show Media USB system is a simple way to connect your ArKaos Media Server system to your favourite DMX controller in smaller applications. Operating the ArKaos system from a DMX system expands your possibilities by allowing far greater media selection possibilities.



new

Studio Due NanoLED

order code. STULED020
STULED025 10Deg Lens

The NanoLED from Studio Due is the smallest LED moving head in the market, but don't question its output; it is also extremely powerful utilising 14 x 3Watt LED's. The NanoLED movement is extremely quick whilst still remaining smooth.
The installation of the NanoLED is very easy due to its size and its light weight and is very useful for clubs, small productions, ballrooms and television applications. Naturally, the nature of LED's means that it is also very useful for long operating times such as retail shopping and internal architectural applications.
A narrow lens option allows further flexibility to a variety of applications.

TECHNICAL SPECIFICATIONS
> 14 High Powered 3Watt LED's
> Full range dimming on Red, Green and Blue LED's for full colour mixing
350° of Pan, 243° of Tilt
Extremely fast movement
Strobe Function
> DMX, Auto Mode, Master/Slave
> 3 Pin
> 12 Channels
> 23° Optics, Optional 10°
> 245 x 221 x 275mm
> 4.3kg

Studio Due D-Colour

order code. STULED040 RGB
STULED045 10Deg Lens

Welcome to a new world of moving light, with its patented smooth, fast and rule breaking movement system, the D-Colour stands alone in the moving light market. The D-Colour directs its powerful output around to unlimited positions; curving, rolling, erecting and rotating around it 540° pan movement and 170° tilt movement.
High powered 3Watt Red, Green and Blue LED's are joined by 4 amber LED's to allow the colour temperature of the beam to be warmed up, making this unit ideal for many applications where natural tones need to look their best such as nightclub dance floors, television applications and adult entertainment venues.
The most unique intelligent light on the market will set your application aside from all of the others.

TECHNICAL SPECIFICATIONS
> 28 High Powered 3Watt LED's
> Full range dimming on Red, Green and Blue LED's for full colour mixing
28 High Powered 3Watt LED's
Unique Patented Pan and Tilt system
Strobe Function
> DMX, Auto Mode, Master/Slave
> 3 Pin
> 15 Channels
> 23° Optics, Optional 10°
> 420 x 328 x 570mm
> 9.5kg

Studio Due ArchiLED 150

order code. STULED030 RGB
STULED035 10Deg Lens

LED's are now so powerful that they can be regularly used for larger colour flood applications, of course the colour temperature of the white generated by the mixture of red, green and blue LED's is often not balanced enough for functional illumination of natural colours such as sandstone and skin tones. With the ArchiLED, amber LED's are added to allow adjustment of warmer tones and effectively light these neutral colours.
An IP67 protection rating is achieved by clever design details such as a touch screen to allow the unit to be completely sealed, furthermore its stainless steel construction ensures long term reliability in the most harsh of environments.

TECHNICAL SPECIFICATIONS
> 48 High Powered 3Watt LED's
> Full range dimming on Red, Green and Blue LED's for full colour mixing
8 Amber LED's to allow colour temperature control output
IP67 rated for outdoor use
Strobe Function
> DMX, Auto Mode, Master/Slave
> 3 Pin (via included IP rated connector)
> 10 Channels
> 23° Optics
10° (optional extra)
45° (optional extra)
15° x 90° (optional)
> 327 x 145 x 323mm
> 7.7kg

new

Impression

order code. GLPLED100 Black
GLPLED110 White

The Impression from GLP features amazing output through the use of high powered LED's, link this with styled housing and extreme pan and tilt speed and you have one useful tool for nightclub, production and television applications.
The baseless design allows for attractive installations in both live production and club application. Television stations in Europe are already using large numbers of Impressions for "in shot" applications.
However the Impression has more than looks, with so many high powered LED's it has as much output as far larger metal halide sourced moving wash lights; certainly bright enough to keep up with other larger fittings in stage and club applications.
The name says it all... Impressive.

TECHNICAL SPECIFICATIONS
> 90 x High Powered 1Watt LED's
> Full range dimming on Red, Green and Blue LED's for full colour mixing
High Speed Pan/Tilt with feedback
Floor Stand Included
> DMX
Via digital menu system
> 3 Pin
> 10 or 14 Channels
> 10° Optics
> 340 x 145 x 370mm
> 7.5kg

GLP GERMAN LIGHT PRODUCTS

The YPOC family from GLP brings an industry standard feature set into a compact, reliable and well priced package. Designed in Germany so you can be assured that you getting top a quality engineered product... In fact key components of the unit that need to remain of the highest quality and remain identical every time such as gears, pulleys and software is manufacture in Germany. The units then are assembled in China under the strictest quality control regulations ensuring a perfect blend of reliability and competitive pricing.

YPOC 575

order code. GLPMOV575

The YPOC 575 features everything you expect from a 575W moving head including 2 gobo wheels, colour wheels, remote adjustable focus and rotating prism. A top quality reflector and bright 575W source ensures that images remain crisp and bright.

TECHNICAL SPECIFICATIONS
> MSR-575W Discharge Lamp
> 11 Colours + White and Bi Colours
7 Interchangeable/Rotating Gobos
9 Interchangeable Static Gobos
Motorised Shutter/Dimmer + Strobe
Rotating Prism
4.5mW DMX Controlled Laser
> DMX, Auto Mode, Audio
Via digital menu system
> 3 Pin
> 16 Channels
> 15° Optics
> 375 x 430 x 450mm
> 24kg

YPOC Colour 575

order code. GLPMOV576

The Ultimate Washlight! The YPOC-575 from GLP combines a high output 575W lamp source, high grade reflector technology and CMY Colour Mixing to create a very powerful unit indeed. Quiet fans and flicker free output also means that it can hit above its weight in high performance applications.
Clubs and live use can benefit from the feature set including large zoom range (8°-22°), rotatable beam shaper and light weight... Easy to use for a powerful result, all at a very competitive price point.

TECHNICAL SPECIFICATIONS
> MSR-575W Discharge Lamp
> CMY Colour Mixing
9 Colours + White and Bi Colours
8 - 22 Degree Mechanical Zoom
Motorised Shutter/Dimmer + Strobe
Rotating Beam Shaper
> DMX, Auto Mode, Audio
Via digital menu system
> 3 Pin
> 15 Channels
> 8° - 22° Variable Zoom Optics

NOVALIGHT s.r.l.
ITALIAN LIGHTING DESIGNERS

High Ground Search Light

order code. NOVHIG100

Lamp included

Nova Light have used simple "bullet proof" design techniques and clever engineering to ensure long term quality and unique feature set. The unit is very fast, completing its 540° of pan in just 3.2 seconds and its 260° of in 2.9 seconds. Its remote zoom adjustment is also incredibly fast; zooming from a tight 1.8° to 20° in just 1 second!
The High Ground is also IP-43 rated meaning that it suited to temporary or semi sheltered outdoor use with no risk of rain damage. Other features include a 5-way colour wheel and shutter/strobe/dimming functions.

MX 10 Extreme

order code. MARROB100
lamp code. LAMHSD250

Lamp included

.....

The MX-10 takes a dance floor classic and reloads it with a powerful infusion of engineering excellence and design and technology, creating a versatile tool for a huge range of applications. A powerful scanner!

Shark 250/C Moving Yoke

order code. STUSHK250
STUSHK055
lamp code. LAMHSD250
Dual Flight Case to suit Shark 250/C

Lamp included

.....

The Shark 250 is a lightweight unit with electronic ballast as its power source. This means greater output and longer lamp life of course, as well as the reduced weight. The sleek and attractive design means the Shark has a lower profile than other moving lights. The unit comes complete with an integral hanging bracket/plate held on with snap lock fittings. Movement is quick and smooth with 540° pan in 2.7 seconds and a 270° tilt in 1.6 seconds that also features a closed loop encoder with auto repositioning – no more missed steps! All these features make the Shark 250 suitable for an array of applications like performance spaces, nightclubs, productions, corporate events and rental houses.

Studio Due Shark 150

order code. STUSHK150
lamp code. LAMHTI150

Lamp included

.....

The Shark 150 is the most compact discharge moving head unit on the market today. The Shark 150 is perfect for nightclub installations, bar and pubs shows and rental companies. Not only does the Shark 150 have 4 rotating and interchangeable gobos but it also has motorised focus and a 6 colour wheel that can do split colours. Just because the Shark 150 is small doesn't mean it isn't sophisticated, the on board electronic digital display panel gives you total control of many parameters on the unit. The Shark 150 ships with a HTI150 lamp included.

TECHNICAL SPECIFICATIONS
> 250W discharge lamp
> 12 interchangeable colours plus open motorised focus. 8 interchangeable indexible rotating gobos plus open. Interchangeable 3-facet rotating prism. Separate shutter for strobe effect
> DMX
> 3 Pin XLR
> 13 Channels
> 18° Optics

SmartMAC

order code. MARMAC150 Black
MARMAC160 White

Lamp included

.....

Brighter light for less

Longer service intervals

Compact fit & versatile

Silent operation

Smaller power bills

Entirely new way of changing gobos

What's so smart about the all new smartMAC?
It's **Bright**; it's the brightest 150w luminarie in its class, actually out performing many 250w fixtures in the market. Its **Reliable**; being completely convection cooled there is no fans or vents exchanging air from the outside to the inside of the fitting, this means that dust or other airborne pollutants are sucked into the unit, ensure longer service intervals and keeping the unit running at its peak performance for longer.
It's **Silent**; with no fans it means that there is no noise, perfect for large volume applications such as ballrooms or even small lounge bar applications where your clientele are nearby. It's also **Compact** and features an **Attractive** housing, available in black or white finishes, suitable for low ceilings and designer interiors.
It's **Innovative**; with an entirely new concept in gobo exchange, it is now viable to exchange gobos more regularly for that special event or corporate function, it done in a matter of seconds.
The cash will be back in your pocket and the time back in your favour; smaller power bills, cheaper lamps, less service requirements and increased resale value.

TECHNICAL SPECIFICATIONS

> MSD 150W Discharge Lamp
> 8 Position Colour Wheel + White + Split Colours
6 Interchangeable Rotating and Indexing Gobos
Remote Adjustable Focus
Strobe Shutter Effect
Completely Convection Cooled - No Fans

> 3 Pin XLR
> 5/9 Channels
> 18.3° Optics
> 550 x 240 x 203mm
> 13.5kg

new

Mania EFX 800

order code. MAREFF020
lamp code. LAMCDM150

Lamp included

One of the driving goals behind the Mania EFX800 was to create a powerful, yet affordable discharge effect light that had the widest possible spread. Through superior optics and a rotating, coloured, dichroic glass paddle wheel at the front of the fixture, the 150W Mania EFX800 throws brilliant flowering gobo effects out over a 170 degree angle. When it gets rocking it is hard to believe that the effect you are seeing comes from only one light fixture. A separate gobo wheel has 12 cool gobos, a rotating parabolic mirror dish enhances the effects and helps spread the beam even further and a mechanical dimmer also acts as a shutter for lighting strobe effects.
As with all Mania products the EFX800 is officially CE, ETL and CETL approved in order to assure users of the fixtures' safety and performance. Of course there is a long-life lamp included – 6000 hrs! That really is the core value of the Mania series – quality, reliability and value!

TECHNICAL SPECIFICATIONS
> 150W discharge lamp
> 12 Gobos
Rotating and indexible colour paddlewheel
Manual focus
separate shutter for strobe
> DMX/Stand Alone (music or auto)/Master Slave
> 3 Pin XLR
> 5/7 Channels
> Multi beam Optics
> 400 x 500 x 230mm
> 14.7kg

Martin

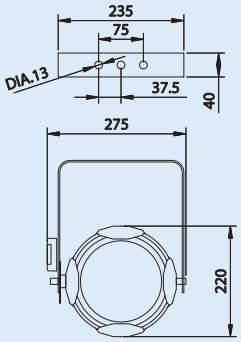
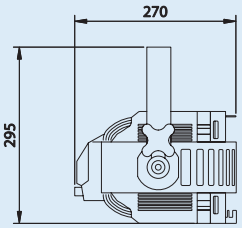
> 25° to 42° Optics zoomable hotspot
> 275 x 260 x 295mm
> 3.5kg





MultiPAR MSR 575

order code. KUPPAR570 Black
KUPPAR571 Silver
lamp code. LAMHSR575

The MSR 575W MultiPAR is an impressively bright and compact fixture ideal for exhibitions and trade shows. The fixture uses an MSR575W lamp (combined with the glass reflector) giving an impressively bright yet even output. The fixture is supplied with 4 interchangeable lenses (Wide, Medium, Narrow and Very Narrow).

MultiPAR CDM 150

order code. KUPPAR008 White
KUPPAR009 Black
KUPPAR010 Silver
lamp code. LAMCDM150

The CDM-150W version of the MultiPAR HO can achieve an amazing amount of light output as it uses the CDM-150W discharge lamp. It is available in three colours, black, silver and white to suit everything from a production to a shopping centre.

MidiPAR 36

order code. KUPPAR475 Black
KUPPAR476 Silver
lamp code. LAMPAR364 AR-111
12V 50W

The MidiPar 36 is a smaller version of the MultiPar HO housing. The unit is fitted with a 12V Toroidial transformer and accepts PAR 36 12V 50W lamps, such as the extremely long life AR-111. The MidiPAR 36 is suited for retail display, shop front, bar or trade show applications.

> 29kg (projector) + 16kg (ballast)

Stand not included

2 Way Blinder w/ DMX Dimmer

JUST PLUG IN THE DMX

order code. KUPPAR369
lamp code. LAMPAR369 x 2

The 2-way DMX blinder offers a great alternative to traditional ways of setting up blinders within a rig or club system. This unit is a standard 2 way blinder, but it has a built DMX controlled dimmer. This means you save on cable runs and dimmer channels when setting up.

4 Way Blinder w/ DMX Dimmer

JUST PLUG IN THE DMX

order code. KUPPAR370
order code. LAMPAR369 x 4

The 4-way DMX blinder offers a great alternative to traditional ways of setting up blinders within a rig or club system. This unit is a standard 4 way blinder, but it has a built DMX controlled dimmer. This means you save on cable runs and dimmer channels when setting up.

2 Way Blinder

order code. KUPPAR362
lamp code. LAMPAR363 x 2

The 2 Way Blinder is designed to house 2 x DWE 120V 650W Lamps. The body of the unit is made of lightweight aluminium, black finish. The rear panel is louvered for efficient ventilation and increased lamp life. The heavy duty yoke has a positive lock off and T bar handle enables this unit to be set at any angle with ease. These units are prewired.

4 Way Blinder

order code. KUPPAR364
lamp code. LAMPAR363 x 4

The 4 Way Blinder is designed to house 4 x DWE 120V 650W Lamps. Each of the 2 banks can be independently adjusted. The unit also suits all major brands of colour scrollers. These units are supplied unwired.

8 Way Blinder

order code. KUPPAR368
lamp code. LAMPAR363 x 8

The 8 Way Blinder is designed to house 8 x DWE 120V 650W Lamps. Each of the 2 banks can be independently adjusted. The unit also suits all major brands of colour scrollers. These units are supplied.

PRO PAR 56/64

Now the accepted standard PAR Can in the industry, the PRO PAR offers many features not found in any other standard package. Standard features include fully integrated PARSAFE which makes the unit not only safe but allows easy adjustment of the lamp. The CAP of the Can is hinged to the main body, allowing lamp changes even when the Can is in a rig. The colour frame has a hole for attaching a safety wire if required. The rivets used are re-inforced and the aluminum is a thick grade for heavy duty use.

Light Modulator

order code. GENCON006

The Light Modulator is a four way dimmer as well as chaser featuring manual fade over rides and inbuilt programs. This controller modulates light to music, creating shows of incomparable richness. A comprehensive "four pack" controller!

new

Studio Due control 5

order code. STUCON500

The Control Five from Studio Due is the latest in advanced DMX control from the famous Italian manufacturer. As the brand develops into the Australian market, the expansion of the range continues with a very capable and affordable DMX control unit. The Control Five is suited to both advanced control with assignable preset buttons, numeric keyboard for quick access parameter changes and 16 bit accuracy on output channels. Simple and quick operation is also achievable through several on board automatic shapes for pan and tilt, simple wait time/fade time programming style and music/midi inputs. Don't be fooled by its looks, within minutes even a beginner can be well and truly be in complete control.

LightJockey 2 DMX

order code. MARCON050

Extremely powerful, LightJockey 2.7.1 includes all the original features that have made the LightJockey the choice of lighting professionals in the Club, Mobile DJ, Touring and Special Events markets: large fixture library, user friendly graphic functionality, advanced shape generator for fast and intuitive automated movement programming, as well as all the benefits of the Windows environment such as resizing of windows and drag and drop technology. Features include a Solid Beam Virtual Visualiser, a high quality visualisation simulator capable of creating realistic, solid, 3D beams. For more flexible music capabilities, LightJockey interfaces with Winamp to play a multitude of digital audio files including MP3. LightJockey includes audio CD ROM capability as well. It also supports SMPTE and MIDI timecode with suitable interface. Also included is a free version of LJ Manager, a software tool that allows you to make a customised touch interface and auto real time scheduling.

Freekie

order code. MARCON155

The Freekie is a DJ controller that adds instant lighting control to the dance floor mix. Packed with easy to use features, Freekie has easy pitch and pan/tilt control for instant lightshow to music synchronisation. Freekie lets you control up to 12 fixtures, each with 12 channels; and there's also a smoke and strobe button you can customise to control 2 additional DMX units.

Frantic

order code. ADJCON110

The Frantic DMX Controller is a powerful and inexpensive answer to the problem of controlling simple DMX fixtures. Features include 192 DMX channels enabling up to 12 moving lights of 16 channels each, 30 banks of 8 programmable scenes, 6 programmable chases of 240 scenes. There are 8 faders for manual control and an assignable joystick for pan/tilt control including a fine mode for sensitive movement. Other features include a switch for DMX polarity, built in microphone for trigger as well as an RCA and DIN sockets for audio and midi input.

Planet One

order code. ADJCON100

The Planet One is a single unit DMX controlled dimmer that can also be used as a DMX switch. The on board settings can be changed so that you can address the unit to any DMX512 setting and tell it to act either as a dimmer or switch. A bright LED display makes it easy to read and use the unit in the darkest environments. Clever design means you can truss mount the unit. Features a standard 240v outlet on the front as well as an 5 pin XLR in and Out for the control signal. Maximum power is 10A. Importantly you can use the unit without any control input, in other words as a stand alone dimmer using the up and down arrow functions on the front of the unit. When turned off and restarted the unit remembers its last state, making it ideal for corporate and exhibition work.

new

Planet One Mark II

order code. ADJCON101

The new and improved Planet One Mark II features the same useful features as the original version such as simple DMX control interface, preset dim levels, dimming limits and switching options, however newly developed software ensures the dimming curve is as smooth as ever.

Planet One Plus

order code. ADJCON105

The best selling Planet One single channel dimmer now has a bigger brother with new features. Still a 10A single channel DMX controlled self contained dimmer module but now with the added bonus of a single fader on the front panel. Great for follow spots, touring work or installations.

new

Planet One Plus Mark II

order code. ADJCON106

The Planet One Plus Mark II features the same new version software, the same compact dimming unit onboard, but also includes a remote dimmer that is very useful in many applications such as follow spot control; keep the power on the floor out of the way and the control at your finger tips.

Fog & Haze Fluids

Jem offers the widest and most popular range of atmosphere generating smoke, haze and heavy fog fluid around. Ideal for use in theatres, discos and clubs, concerts, festivals even television applications. Jem fluid is effective, safe and economical. All Jem fluid is environmentally friendly and water based. All fluids are made from the highest quality food grade polyfunctional alcohol which are diluted with water and purified by double reverse osmosis and ultra - violet filtration processes. This guarantees a virtually mineral and bacteria free product. Jem want you to be totally satisfied with your smoke machine.
Only by using Jem fluid can you be 100% guaranteed that your Jem smoke machine will operate optimally. Possible problems, including a shortened machine life and possible health risk may occur with the use of any other type of fog or smoke fluid. The efficiency and quality of Jem fluid has been greatly enhanced since the opening of their new fluid production facility in Lincolnshire, England. A fully automated and programmable mixing and pouring system has been installed in virtually sterile environment that guarantees a pure, precise product. The facility will effectively increase the production of Jem fluids while ensuring high quality and safety standards. MSDS reports available.

new

The Magnum 650 fog machine offers the perfect boost of dense white fog to enhance every light effect. The fast heat-up time and extended operational period place the Magnum 650 as the clear leader in its class. Its modern styling will set your gear apart from the others.

Magnum 800

order code. JEMFOG103
JEMFOG040 DMX Remote

Dance clubs and discos all over the world have appreciated this industry workhorse for years. This reliable yet compact smoke machine delivers a non-stop intense cover of fog for instant atmosphere generation – a must for any mobile DJ or small club.

ZR-12 AL & DMX

order code. JEMFOG105
JEMFOG110 ZR12 DMX

The ZR12 AL is the result of classical Jem design principles. Electronic pump ramping provides continuous and even smoke output. Soft start electronics gives a low level of operating noise, ideal for TV and theatre environments. The ZR12 AL is extremely quick to heat-up meaning greater control of smoke when you want it. The ZR12 DMX includes all the same features as the ZR12 AL yet has added DMX input via a specially designed on-board interface for extra flexibility and control.

ZR-33 Hi Mass DMX

order code. JEMFOG139

The ZR33 Hi-Mass is designed to generate instant atmosphere in large clubs, stage productions and industrial applications. It combines a unique range of features to create a powerful fog machine capable of supplying exceptional atmospheric effects. The ultimate in control options is available with DMX 512 as standard. An on-board remote is also included offering auto timer function extendible by the 8x-mode function. The standard, professional industry's choice.

ADJ Effects Lighting

GT Fazer

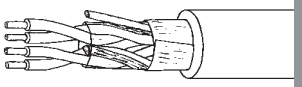
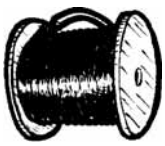
The best investment you'll ever make

A new addition to the PRO SHOP range is a range of popular cables from TMB, the world famous supplier of lighting gear based in the U.S but with offices all over the world. TMB are well known in America and Europe as the first company – starting over two decades ago – to design and build cables specifically for portable entertainment production. Built with proven processes and materials to precise standards, TMB cables are world renowned for both ease of use and reliability under the most severe conditions, bringing TMB's industry standard cables and assemblies to the Australian and New Zealand markets. TMB's "ruggedized" technology evolved from the rigours of Rock & Roll concert touring – an industry in which cables must withstand years of hard use on the road. The long-term success of TMB cables in such a demanding industry speaks for itself. The current line up offers a wide range of TMB cable and cable assemblies, including the high-end ProPlex® data control cables and ProCable® multi-conductor cables. Cable can be purchased pre-assembled in various lengths or purchased by the metre. Socapex headers and tails are also available. TMB products are of a high standard and given the genuine requirement for reliable professional cables products in our marketplace ensures they are a great choice. Also new are a range of PAR Bars from KUPO, known to professionals all over the world as a name associated with professional, reliable and quality made products. This product range will expand quickly but if you are after something that isn't listed here yet call.

Built to last





KUPO®

Digi-Check

KUPDMX001	Extremely versatile tool for DMX diagnostics and cable testing. The Digi-Check has 9 built in LEDs for indicating the status of DMX signal and data line. As an added bonus it has a built in torch. Comes complete with a carry pouch.

ProPlex™

Ethernet Cable

CABLE ROLL

TMBETH050	Proplex Ethernet 4 Pair CAT-5E #24 Cable (per metre)

The world's most ruggedized cables

DATAPLEX

TMBACC10	Making the powering of a lighting rig is made even easier with the introduction of the SocaPex Rubber Splitter Box. SocaPex multicore is an easier way to power your lighting rig; using the splitter box you can obtain two branches of the six SocaPex circuits, cabling becomes less complex.
TMBDMX001 3 Pin TMBDMX002 5 Pin	"The Arnold" from Pro Shop is a very simple yet useful tool to assist you in your next light setup. Available in 3 and 5 pin models this unit acts as a signal terminator to prevent signal interference and an indicator LED allows you to see that DMX signal is being received to that point in the DMX stream.

Large Safety Wires

order code. KUPRIG110
Large Safety Wire (150kg)

Small Safety Wires

order code. KUPRIG100
Plastic Coated (80kg)

Every fitting hung in any application should have a safety wire attached to it and secured against a secure point. We offer two choices in our range, the small type - rated at up to 80kgs and suitable for most lights (including smaller moving lights) and the large type - rated at up to 150kgs and suitable for larger moving lights and smaller rigging applications.

3m Lighting Stand

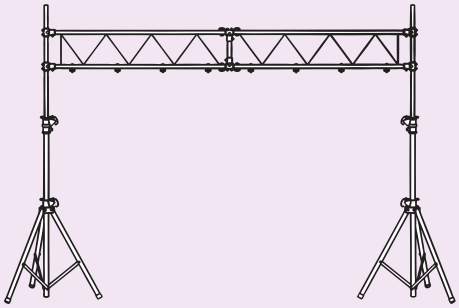
order code. KUPRIG205 Black
KUPRIG206 Silver

> Lazy Leg Levelling System
> Comes Including, Spigot, T-Bar & Bolts
> Extended Height 285cm, 5kg
> Ideal for PARs

Wind Up Stand

order code. KUPRIG200

3 section Wind Up Stand - Chrome plated steel. Comes with "lazy" levelling leg. Reaches a height of 245cm, weighs 18.5kgs and can hold 45kgs in downward force.



Mobile Truss

order code. KUPRIG220

Mobile Truss is a complete stand system with 2 stands and 2 pieces of light weight flat type truss included in the package. The stands can reach a height of 3m. Great for mobile DJ's, bands or any live act.

Follow Spot Stand

order code. KUPRIG300 Stand
KUPRIG305 Spigot

> High Quality Chrome Plated
> High Performance, 2 Section Lift
> "Lazy Leg" Levelling System
> 40kg Weight Rating
> 147cm Extended Height, 9kg
> Use in addition with the Followspot Spigot

Economy Stand

order code. KUPRIG210

This all purpose stand is made of steel and finished in a black powder coat. Ready for the road, it comes complete with a T bar with bolts and extends to a height of 280cm.

ParBars

order code. KUPBAR040 4 way + 2 spare circuits
KUPBAR060 6 way spaced

Kupo Par Bars offer a convenient and efficient way of distributing power.

Clamps

An essential component for any lighting item is the clamp by which to hang it onto a truss or pipe. Our professional series of clamps is the industry's most exhaustive and we have a design for any occasion. Kupo clamps are made to exacting standards and regarded as the first choice by many of Australia's leading touring and installation companies.

Trigger Clamp

200kg Vertical
60kg Horizontal
order code. KUPRIG025

The Trigger Clamp in a new design to make rigging heavy fixtures easy. The feature of this clamp is that it latches to the lighting bar safely. Once the clamp is on the bar you are able to lock off the clamp with minimal effort. The clamp is made of 6061 T6 high - strength aluminium extrusion. Your fixture mounts with an M12 bolt and lock nut supplied as standard. The double levels countersunk for M12 or M10 hex head bolts so when tightening the nylock nut the bolt will not turn.

2" Hook Clamp

order code. KUPRIG050 Black
KUPRIG051 Silver

Includes nut and bolt.

DISCLAIMER

Due to minor changes in design or otherwise, the products you buy may differ slightly from the ones shown in this catalogue. Whilst every effort has been made to ensure that the information contained in this catalogue is accurate at the time of publication, Show Technology recommends that you consult with your PRO SHOP representative or its agents prior to placing an order to ascertain current information on specific products, as Show Technology reserves the right to make changes without notice. Show Technology will not be liable for any injury, loss or damage whatsoever, arising from any errors or omissions in the information contained in this catalogue or arising from the use or application of the information contained herein. Please note that colours and details shown in this catalogue are to the highest standard in printing. However they should only be used as an indication of product specifications. PRO SHOP products carry a 12 month warranty provided equipment is used as specified and installed by qualified contractors. Items not covered by warranty include wear and tear items such as lamps, glass, brushes, motors and belts. Claims can only be made via authorised agents.

So easy to keep clean!
What a handy gobo lid!
Wow, you're so bright!
Hmm – compact and versatile!
I can't even hear you!
You save me time!
Lower power bills!
What? No fans!
You're dust free!

smartMAC – irresistible!

Bright. Efficient. Silent. Clever solutions to old problems are what make smartMAC smart.

- **Brighter light for less** – a 150 W luminaire that outperforms many of its 250 W rivals with excellent center-to-edge beam uniformity
- **Long service intervals** – the dust-proof environment means less wear and tear, greater reliability, and less maintenance
- **Silent operation** – heat management without fans makes smartMAC perfect for the studio or lounge
- **Save money and time** – save on power bills and reduce maintenance and cleaning costs
